—EXACTREPLICAS™—

ALL THE DIFFERENCE IN THE WORLD

Seeking to replicate the ancient frescos with the utmost respect and fidelity our artists and engineers created the Exact Replicas™ process.

Using top technology and modern day tools, in an environmentally friendly process, historic artifacts are reproduced as close as possible to the originals.

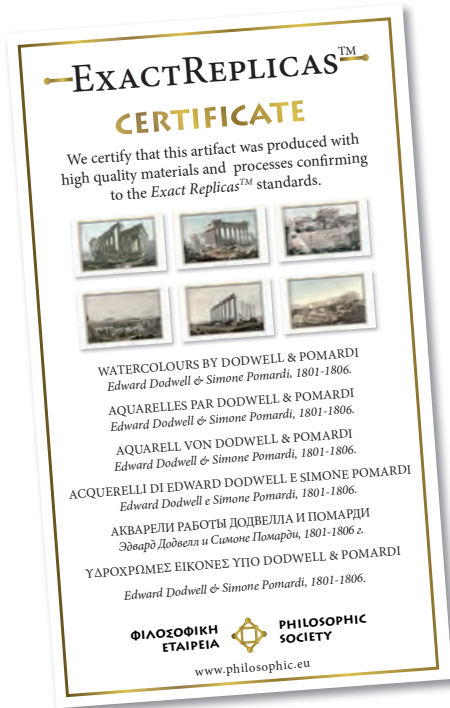

In sculpture, the process begins with a top quality 3D scan of a master, which is

then processed and scaled down to desired dimensions; after that, a production model is created, which is molded in high quality art plaster, resulting in an exact representation of the original made to scale.

Thus, all the artifacts bearing the seal of the Exact Replicas™ represent the closest possible reproduction of the feeling of the original, having nothing in common with cheap and rude productions of similar items that bear a vague resemblance to the originals.

Another important Exact Replicas™ family is the Engravings' packs, reproducing in high quality prints the Watercolor Engravings created in the past; using the finest processing and printing technologies, along with high quality art papers, these 6-packs of engravings present a unique decoration opportunity for any modern home.

Exact Replicas™ is an innovative family of products seeking to provide copies of museum artifacts, with maximum fidelity to the original and high durability, in environmentally friendly processes using the best reproduction technology available today. See more at www.hshop.gr/ exactreplicas

All Exact Replicas™ artifacts are accompanied with a Certificate.

The Philosophic Society was founded with the mission to diffuse the Achievements, the Power, the Beauty and the Uniqueness of the Greek Civilization from antiquity to modern times to the widest possible public, introducing innovative products of all forms, by taking advantage of the latest enabling technologies. Based in Athens, Greece, Philosophic Society is home to a dedicated group of people with extensive backgrounds in Publishing, Art and Academia, driven by their love, admiration and knowledge of the essence of Greece through the eons.
